

This supplement contains performance parts and accessories that have been added after printing of the Sport and Rally brochure.

Availability of performance parts and accessories sometimes requires 1 - 3 months leadtime, and has to be ordered on special competition order forms.

For prices check with your local Saab Dealer. All five digit part numbers in the brochure correspond to U.S. seven digit part numbers by adding 00 as a prefix to the number.

WARNING

Most parts ordered herein are for competition/off-road use only. Any vehicle which is modified by the installation of Sport and Rally/Competition equipment which adversely affects the vehicle's safety and/or emissions control characteristics may never be used on public streets or highways.

1979
SUPPLEMENT
